

# LET'S TAKE CONTROL OF OUR FUTURE!

You Deserve a Better Future!

---

**Union workers built the middle class by standing together** to fight for pay, health care, and respect in the workplace. **But today, we are under attack.**

Corporate interests are calling the shots, and they prefer you silent. They don't want you or your family to be able to fight for a better life. You see it every day:

- » **Paying the bills is getting harder**
- » **Medical expenses can be crippling**
- » **There is a lack of respect for educators**

Our Students Deserve a Better Future!

---

**Today more than ever, we need to come together and fight forward** so we can pay our bills, care for our families and loved ones, and be respected for the work we do every day!

As educators we care and we show up each day, even when its hard and the cards are stacked against us. **It's time to demand our school boards, state lawmakers and the Governor to do the same!**

Our Community Deserves a Better Future!

---

**Join your union and together, let's fight for a better future!**
